DOHA QATAR

Our message

Since its establishment, Al-Farida has been aiming to add new dimensions of engineering ideas to the Qatari market at high levels of luxury and creativity and we are striving to reach a leading position in our field on the territory of Qatar.

From the very first moment of our departure, we have placed before our eyes the importance of compatibility and compatibility with the urban and construction boom targeted by the State of Qatar during the past years and in accordance with its vision during the renaissance of Qatar 2030

First of all, thanks to God and our efforts, we have been able to make strong achievements that create a vast record of achievements that extend every inch in Qatar and in its various municipalities, streets and corners. In accordance with the company's footsteps and its thoughtful vision and the help of its sons of the finest engineers with experience and high competence in the fields of engineering and construction and all our assets and supplies; We hope to achieve further progress and spread through a variety of comprehensive services in the fields of umbrellas, modern councils, wrought iron works, finishes and interior decoration.

Thanks to the trust our company enjoys, we are proud of our relations and partnerships with many governmental and non-governmental organizations in Qatar, and we wish to be a strong supporter and a key player in the Qatari engineering market. We pledge to provide everything that is new, modern and advanced in accordance with the highest and best standards on a global level to meet the aspirations of our customers and agents, who are our partners in success and excellence

Our slogan

customer
satisfaction
above all else

Our vision

is to provide our services with high quality patterns while offering prices that suit our customers

Our mission

is to complete unique engineering models that remain a testament to the era of architectural development in the State of Qatar
